

## SRIF supplementary science case template

Please describe below, in a minimum font size of 10 point and in no more than four separate sides of A4, the scientific case for your project. This should include the following information:

- full description of the project as well as the equipment or proposed works (not duplicating any information already entered on the project data-sheet)
- a description of the links between the proposed research and the institution's research strategy.

*See 'Science Research Investment Fund – invitation to apply for funding' (HEFCE 01/11) paragraphs 20-22 and 37-38 for further information.*
